Section B Transaction Signing Limit

Important: Your Security and Authorisation of Payments

The NAB Connect Channel offers a “Transaction Signing Limit” by payment service. This means that the last Authorising User to authorise a payment has additional security steps to perform when a payment is equal to or over the Transaction Signing Limit set. Used correctly, this capability can reduce Your exposure to fraud by imposing these additional payment verifications.

Please tick which option You would like Set limit amount to **OR** Remove limit for all payment services

If You have selected ‘Set limit amount to’, do You want Your limit to apply to all payment services? Yes No

If Yes, specify value \$

If No, please specify a limit for all or some of Your payment services

Domestic payments	\$ <input type="text"/>	International	\$ <input type="text"/>	Executive Payroll	\$ <input type="text"/>
BPAY	\$ <input type="text"/>	Direct Credit	\$ <input type="text"/>	Direct Credit GDES	\$ <input type="text"/>
Payroll	\$ <input type="text"/>	Direct Debit	\$ <input type="text"/>	Linked Account Transfer	\$ <input type="text"/>
Direct Link Direct Credit	\$ <input type="text"/>	Direct Link Direct Debit	\$ <input type="text"/>		

Please note: Transaction Signing Limits can only be applied at a payment service level and not at a user ID level.

These changes apply to all accounts under this NAB Connect facility, including any third party accounts. Please ensure all third party account owners are notified of these changes.

Section C Customer Declaration and Execution

Your security and Authorisation of Payments

NAB takes Your online security very seriously, and this is why we have built a number of security features into NAB Connect including Segregation of Duties, Transaction Signing and the ability to nominate authorisation rules that require multiple authorisations prior to processing.

We strongly recommend that You take advantage of NAB Connect’s security features. For more information visit [Security features in NAB Connect](#)
